## DXpedition News

**Andamans - VU VU4APR** has been very workable on 40, but extremely weak on 20. The best time for West Coast DXers seems to be around 1500Z on 40. The operators often do not include their suffix, which may complicate QSLing. On 20, try aiming your beam a little to one side or the other of the North Pole, to catch any possible skew paths around the Arctic. Sunrise 0000Z, sunset 1150Z. QSL VU2APR.

**Christmas Is. - VK9X** Jim Smith is now on as **VK9XS**, after his **VK9YS** stint. He had serious antenna problems from Cocos, and only resolved them as he was leaving on Feb. 24, so his signal was often very weak. Check Bandpass under **VK9YS** for operating habits, and especially watch 7002 12-1600Z. Sunrise 2300, sunset 1112Z. QSL **VK9NS**.

**South Shetlands LU6UO/Z** continues to be very active, and very workable on the bottom of 40 at 01-0400Z. He's been on 15, 20 and 80 as well; see Bandpass. And **4K1F** at the Russians' Bellinghaussen base has been active on 40 CW: 7010 at 0500Z. Nothing has been heard from **CX0XY**, who was supposed to show by now.

**Belau - KC6** Saty **JE1JKL** will operate as **KC6CS** from the Republic of Belau (aka Western Carolines) (OC-09) Feb. 27-Mar. 3. Watch 1826 and 6 up from the bottom of the CW bands. RTTY activity on 14090 at 0700 and 2300Z. QSL to **JE1JKL** or via **JARL** bureau.

**Maldives - 8Q7** Iris Colvin **W6QL** is out of the hospital, and reportedly back in the Maldives. No reports of **8Q7QL** yet, but check the Snooky net on 14183 around 1800Z for the latest word.

**British Virgin Islands - VP2V** **K3EST**, **KT3Y**, **K2SS**, and **WA6VEF** will operate in **ARRL** SSB as **K2SS/VP2V**. QSL **WA6AHF**.

**Cayman Islands - ZF** Joe **WA6VNR** and his wife **WB6MME** will operate **ZF2AH** June 26-July 14, mostly CW. Contact Joe at his CBA for skeds.

## DXCC Notes

• The **DXAC** has voted down applications for new country status for the Council of Europe (TP2CE), and for Tierra del Fuego. No New Ones here!

• **T50DX** cards are not acceptable for DXCC credit. Don Search says that **I2JSB**'s documentation does not mention amateur frequencies, nor a callsign. George plans to return to Somali in the Spring. Maybe he can get better paperwork. **TDXB** will keep you posted on any progress.

• **A6** stations have been quite active, but most are not good for DXCC. While **A61AA** is okay, **A6XB** and **A61XL** do not have legitimate operating permission, and they will not count for DXCC. (**A61XL** was on RTTY, too!) **A61AB** Franco is also active, but no QSL route has been noted. **IK8DYD** is not the manager, according to DXNS.

• **Asian Slim HB0B**, **9N1KS**, and other calls from Asia on 40 are probably false. Signal strengths, fading patterns, and beam headings don't fit.

## Shortly Noted

• **KA2IJ** will return to Iwo Jima in June.

• **3D6BW** is on 21272 kHz at 1630Z on Mondays and Wednesdays. QSL via **AK1E**.

• **SU1ER** has been very active on 20 meters, especially in the **W7PHO** net on 14227 at 1800Z. He's also been worked outside the net around 2000Z.

• **XU1SS** is back on the air, usually with **DU9RG** on 7088 at 0100Z.

• **OE8HFL/YK** has been worked on 14215 at 1900Z. This counts for Syria for DXCC.

• **9Q5KI** puts an excellent signal into the US. Try 14008 at 19-2200Z, and 7003 after 2300Z. He says he's on 3505 at 0000Z as well. QSL **YU3KI**.

• **FT8WA** is also loud on 7011 01-0200Z.

• **3C1MB** and **S92LB** have appeared in a net on 14160 at 2200Z.

• **BY5RA** 14025 at 0100Z often.

— Chod Harris **VP2ML** Editor

Thanks N4XX and KH6BZF.

### Propagation Watch

Are you enjoying the present band conditions? There is more of the same forecast for the next two weeks, including ARRL SSB. 20 and 40 meters are the main DX bands, but continued low absorption provides excellent 80 and 160 meter openings. 10 meters is open north-south far more often than reports suggest, and 15 provides a surprising amount of good DX, considering how low the solar flux remains. Any small increase in solar flux will open this band worldwide; keep an eye on it, especially when 20 meter skip shortens up.

### Islands On The Air

- **Wrangel Island AS-27** UA0KBD has been on 40CW around 0100Z. IOTA hunters can arrange skeds with 'KBD through Yuri UA0KCL, who is very active on 40 CW.
- **Saltspring Island NA-75** TDXB reader VE7GFA hails from this Gulf Island QTH, especially on 40 CW.
- **Captiva Island NA-69** IOTA hunter W4BAA is active from this one.
- **Tampa Bay Group NA-34** W4BAA and W9DC will put a new one for IOTA on Mar 1-2. Watch 14260 and 14060 after 1300Z Mar 1, and the IOTA net on Sunday (14260 kHz at 1300Z.)

### Peter I and DXCC Golden Jubilee

As mentioned in Issue 374, the 3Y operation does not count for DXCC Golden Jubilee, because the DXCC desk has not received any official paperwork from the Norwegians. Although DXCC accreditation criteria state that "the vast majority of operations are credited routinely without any requirement for submission of documents," Don Search W3AZD is withholding approval until he hears from the Norwegians. This despite the official ARRL Countries List statement that "Peter I will be added to the ARRL DXCC List upon the first creditable operation." Note it says "upon first operation," not upon acceptance of any documents. The decision to postpone acceptance of Peter I is not popular among DXers, as the following letter typifies: Dear TDXB:

I note that Don Search W3AZD will not allow 3Y contacts to count for Golden Jubilee. This makes me see RED. I don't see anything in the DXCC rules to justify this. Could it be that Mr. Search is making up new rules? If so, I have no interest in even applying for this costly (\$5) award. I have jokingly been referring to it on the air as the "golden fleece award;" perhaps that's not so far from the truth.

Let's keep the fun in the game, and not get hung up on technicalities. What's the point?

- George Wagner K5KG/LU

Meanwhile 3 DXers (of more than 400 who applied) have had their Golden Jubilee applications rejected, one for claiming the 3Y. And still no word on when the certificates will be mailed.

# QSL INFO

## QSL Help Wanted

- **TK5UC** for KE8GG. F5RV is listed "Silent Key."
- **ZD7PS** 1975 for W7YS.

## QSL Help Offered

- **XE2VKR** via NN7A, Box 201, Flagstaff AZ 86002.
- **ZF2JR** (ex-ZF2FL) is Jim Rafferty N6RJ. QSL CBA.
- **5N2ACB** QSL manager is W2CTN, op was W3FU, who will answer QSL requests.
- **KC6JC** is okay in 1987 Callbook: Joe Cavanaugh, PATS POB 39, Pohnpei, Federated States of Micronesia, Pacific Ocean. (US stamps are no longer good; use IRCs or Green Stamp.) Thanks W5FS
- **EA9CE** is the URE club station in Ceuta. Try EA9JG.
- **3B8DO's** QSL card reads: Hervé Groeme, 19 Bis Nicoles de Céré St., Beaubassin, Mauritius.

## IRCs versus Green Stamps

Baldur DJ6SI asks for US\$1 instead of IRCs for his 5L2SI FOC Marathon operation. Not for the money, he explains, but because IRCs are so wasteful. A new IRC cost DM2.20, and is worth only DM1.20. Likewise new IRCs form the USPS cost \$0.80, and you will get only \$0.31 for foreign IRCs at your local PO. So Baldur says rather than subsidize postal systems around the world, send a "Green Stamp" (US\$1 bill) instead. By the way, Baldur does not collect cards, so you can simply provide QSO information on a piece of paper, and save yourself a few more cents.
